

Artist T4.8V Artist T8.8V

Multi Channel Class D Amp

For Both Impedance and Voltage Output

Artist T4.8V and Artist T8.8V are with switch mode power supply and Class D circuit design, with high working efficiency, light weight and good reliability.

Artist T4.8V and Artist T8.8V multi channel Class D amps are with both impedance and voltage output. For impedance output, output power is 400W@8ohm each channel. Each channel can work at 4ohm. For voltage output, it's 100V/1000W or 70V/ 800W.

Artist T4.8V and Artist T8.8V are with modular design. Every two channels share one separate power supply and amplifier system.

With elaborately selected components and state-of-the-art craftwork, Artist T4.8V and Artist T8.8V have very good fidelity and high damping factor. It's good choice for music reproduction, speech and AV system integration.
